## 6 Most Important Ways to have a successful Facebook Party!

1. Select Livestream times with Consultant.
2. Work with Consultant to create private Facebook Group for the party.
3. Private message your friends that you'd love to have join you.
4. Add them to the group when they say YES!
5. Plan the first Livestream with your Consultant to let your guests know all the ways they can win and why you love MK.
6. When the party is over, encourage your friends to hold their private beauty chat with your Consultant so they get the party specials and you get credit.
